- Step 4: Scroll down the page and write 'adding source' to describe the change made to the listing.

Fishing for Luck uses one full Scheepjes Whirl for 14 repeats of the pattern. This creates a long rectangle shawl. A shorter shawl is achieved using less pattern repeats, but for the full colour change effect of a whirl I recommend 14 repeats.

This is a fun shawl to work up and watch grow. It incorporates Filet work with small clovers hanging at the ends. These are staggered to give a unique look.

The pattern is available in both USA, Uk and now also available in NL
